WINE DESCRIPTION	Exotic papaya and guava play with lively acidity and rich berry, spice and chocolate flavors. Exotic spices and cherries in the long and smooth finish.		Flavors of rich dark berries, spicyness, smoke and a mineral taste of earth. Cherries, vanilla and a firework of intense fruit lead into a long and exciting finish.		A great, distinct Mountain Cabernet. Soft and melting in the mouth, with rich, complex waves of blackberries, cherries, chocolate and anise, dusted with briary herbs and spices.		Dark-purple color, intense ripe blackberry and plum aromas followed by a rich, meaty mouth-feel of mint, sour cherries and raspberry jam.		
WINEMAKER COMMENTS	From our Fair Play Farms vineyard, one of the premium vineyards in the entire Sierra Foothills comes our premium Zinfandel. We fermented and aged in French and American oak barrels to preserve the luxurious fruit flavors and wonderful complexity of this great vintage.	Dark Forest stands for an outstanding block of Syrah in our vineyard. The roots of a 500 years old oak forest compete with the vines for the little water and nutrients in the soil. Only the finest French oak barrels get selected for this special Reserve. A truly distinctive representant of terroir of the Fair Play AVA.	Some of the best Cabernets stem from high elevation vineyards. At 2500 feet, our grapes grow to elegant complexity, liveliness and rich fruit character. 30% gets aged in selected French oak barrels for up to 20 months. Our Cabernet truly represents the high potential of the Fair Play AVA.	Low yields concentrate both flavors and color of this special Petite Sirah. This wine spent over 20 month in our finest French oak barrels, enhancing ripe tannins while accentuating its complex flavors and amazing body. It's deep, rich texture is followed by a seductive finish.					

Altitude:2401 Series

Altitude:2401 stands for our Reserve wines and ties them to our Fair Play Farms Vineyard's average elevation of 2401 feet. The vineyard is one of the most modern farmed in the Sierra Foothills. It was planted 10 years ago and is overseen by Garrett Buckland our viticulturist from Napa, who works with some of California's most popular wineries. Fair Play Farms Vineyard is the major grape source for Perry Creek Winery allowing us to produce wines that stand next to other great Californian wineries from all areas and to develop our distinct and unique style. The well drained decomposed granite soils and the complex microclimates in its different blocks resemble some great growing areas in the northern Rhone Valley of France. This is why Rhone varieties next to Zinfandel thrive up here to an elegant complexity only found in the Fair Play AVA.
